CONFORMATION

		80	90	100	110	120
Stature	Short					Tall
Rib structure	Coarse					Angular
Chest width	Narrow					Wide
Body depth	Shallow					Deep
Rump width	Narrow pins					Wide pins
Rump angle	High pins					Low pins
Top line	Weak					Strong
Rear legs, side view	Straight					Sickled
Rear legs, rear view	Toes out					Parallel
Foot angle	Low					Steep
Bone quality	Coarse					Fine and thin
Hock quality	Filled					Dry
Fore udder attachment	Loose					Strong
Rear udder height	Low					High
Rear udder width	Narrow					Wide
Udder support	Weak					Strong
Udder depth	Deep					High
Udder balance	Deep rear					Deep front
Teat length	Short					Long
Teat thickness	Thin					Thick
Teat placement (front)	Wide					Close
Teat placement (back)	Wide					Close
